

1. Introduction

This document is Volume 6b of the Environmental Statement and provides groundwater and surface water mapping across the Crossrail route. In particular, the following water features are mapped:

- Groundwater Abstractions and 50 and 400 day Travel Time Zones
- Approximate Zone of Saline Influence
- 2003 Chalk Groundwater levels
- Surface Water bodies
- Surface Water abstractions
- Surface Water discharges
- Environment Agency Flood Zone 3

The sources used in preparation of the water resource mapping are summarised in Section 2.
